

Modified Marketing Solutions, LLC

Custom marketing strategies and execution based on the individual needs of your business

You may be asking, “what makes you different?” ...

I specialize in working with small businesses and understand your needs and priorities because I've owned a small business! I owned and operated a sales and B2C marketing company for 3 years. I know the pressure of placing faith in someone else to bring in more revenue and clientele. I know that an overpriced package costing thousands of dollars doesn't necessary give long term growth. I know that in order for someone to help a company grow, they must personally be invested in that company. I'm passionate about taking the online needs of a business off the shoulders of the business owner, so he or she can focus on what they truly love to do. On top of that, I don't ask my clients to sign long term contracts, my goal is to earn your business each and every month. I have 5 years of experience doing social media marketing for NBC Universal and 3 years of experience doing social media for my own company and I've proven results of 300% growth. My social media strategy is based on genuine engagement, attracting the right consumers, managing and protecting your online reputation, and most importantly, relationship building. I work for you; and your success is my success.
